04

EASY CITY TO GET AROUND

The city is connected by large avenues end-to-end.

It is a medium-sized city, supplied by a well-dimensioned fleet of vehicles, providing good traffic flow, facilitating access to hotels, airport and the convention center.

It takes just 15 minutes from the Airport to the Downtown Area
(hotels and venues)

Iguassu Falls

THE WORLD'S LARGEST SET OF WATERFALLS

Itaipu Dam

THE WORLD'S LARGEST CLEAN ELECTRICITY PRODUCER

A wide, powerful waterfall cascades over a rocky ledge on the left side of the frame. The water is a milky white color due to the force of the fall. Below the waterfall, a river flows through a rocky landscape, with several large, dark rocks protruding from the water. The background shows a hazy, distant view of the same waterfall, creating a sense of depth. The sky is a clear, light blue with a few wispy clouds. The overall lighting is soft and warm, suggesting a sunrise or sunset.
