

UNECE Sustainable Energy Division Group of Experts on Gas Hydrogen Task Force

Dr. Andrei V. Tchouvelev
Vice Chair, Group of Experts on Gas

UNECE – Hydrogen Task Force

29/May/2024, Singapore

Mission Statement

Group of Experts on Gas

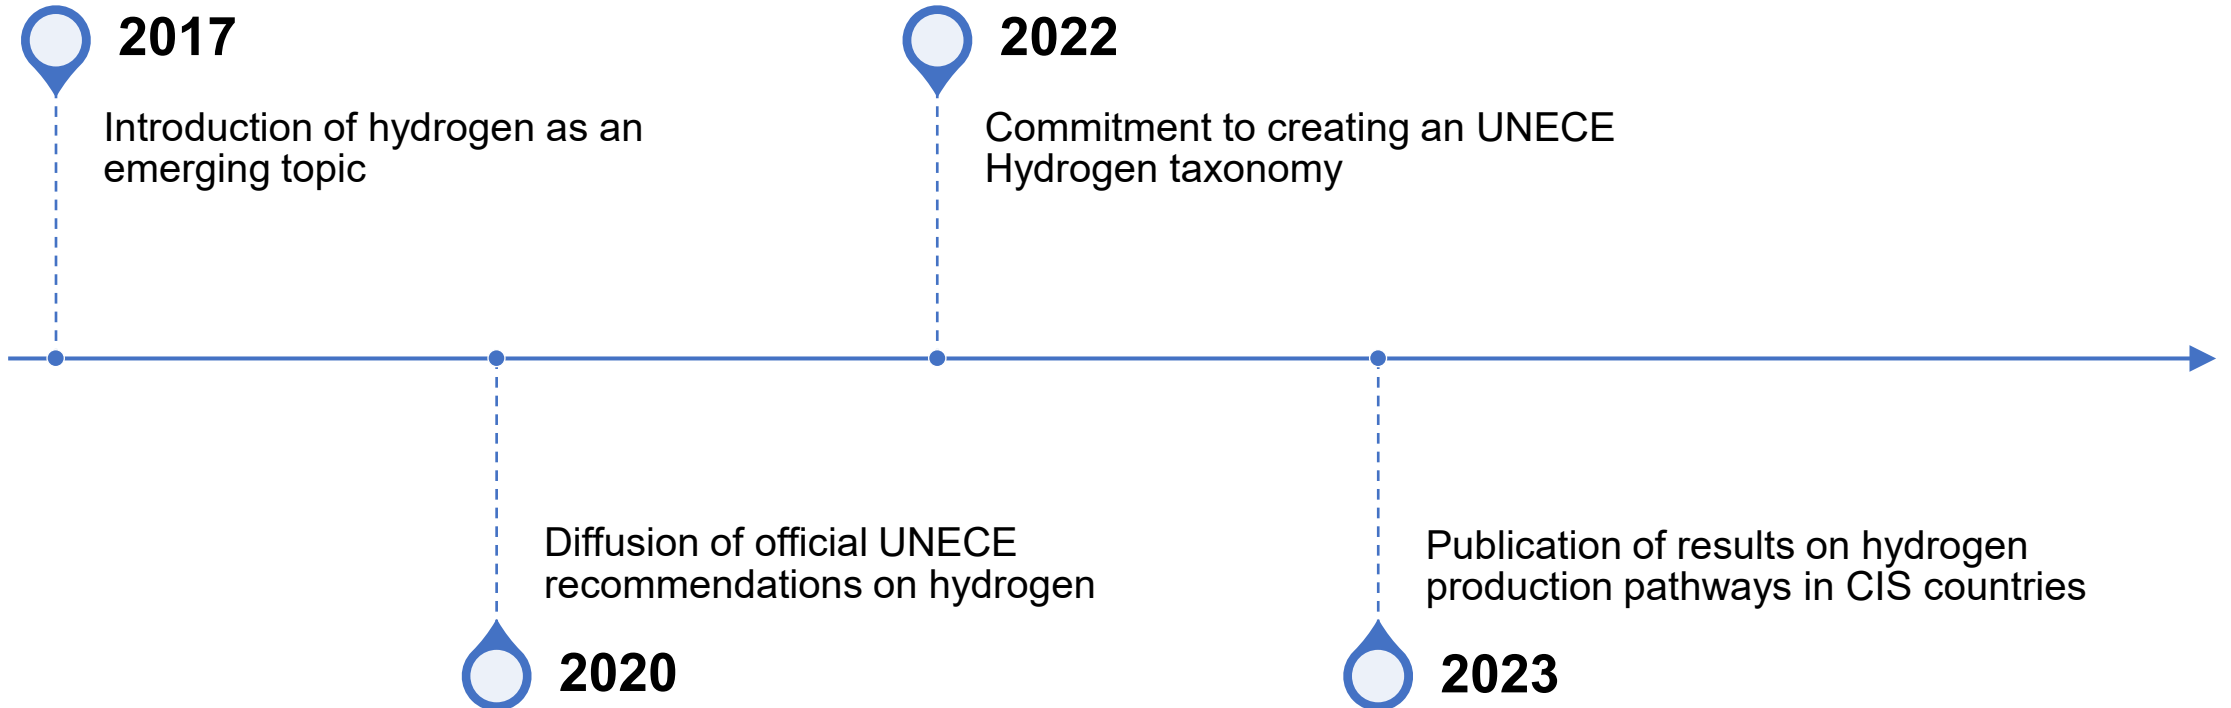

The Group of Experts on Gas helps UNECE member States deliver on key political commitments, such as the [2030 Agenda for Sustainable Development](#) and the [Paris Agreement on climate change](#). The priorities of the 2024-25 work cycle are:

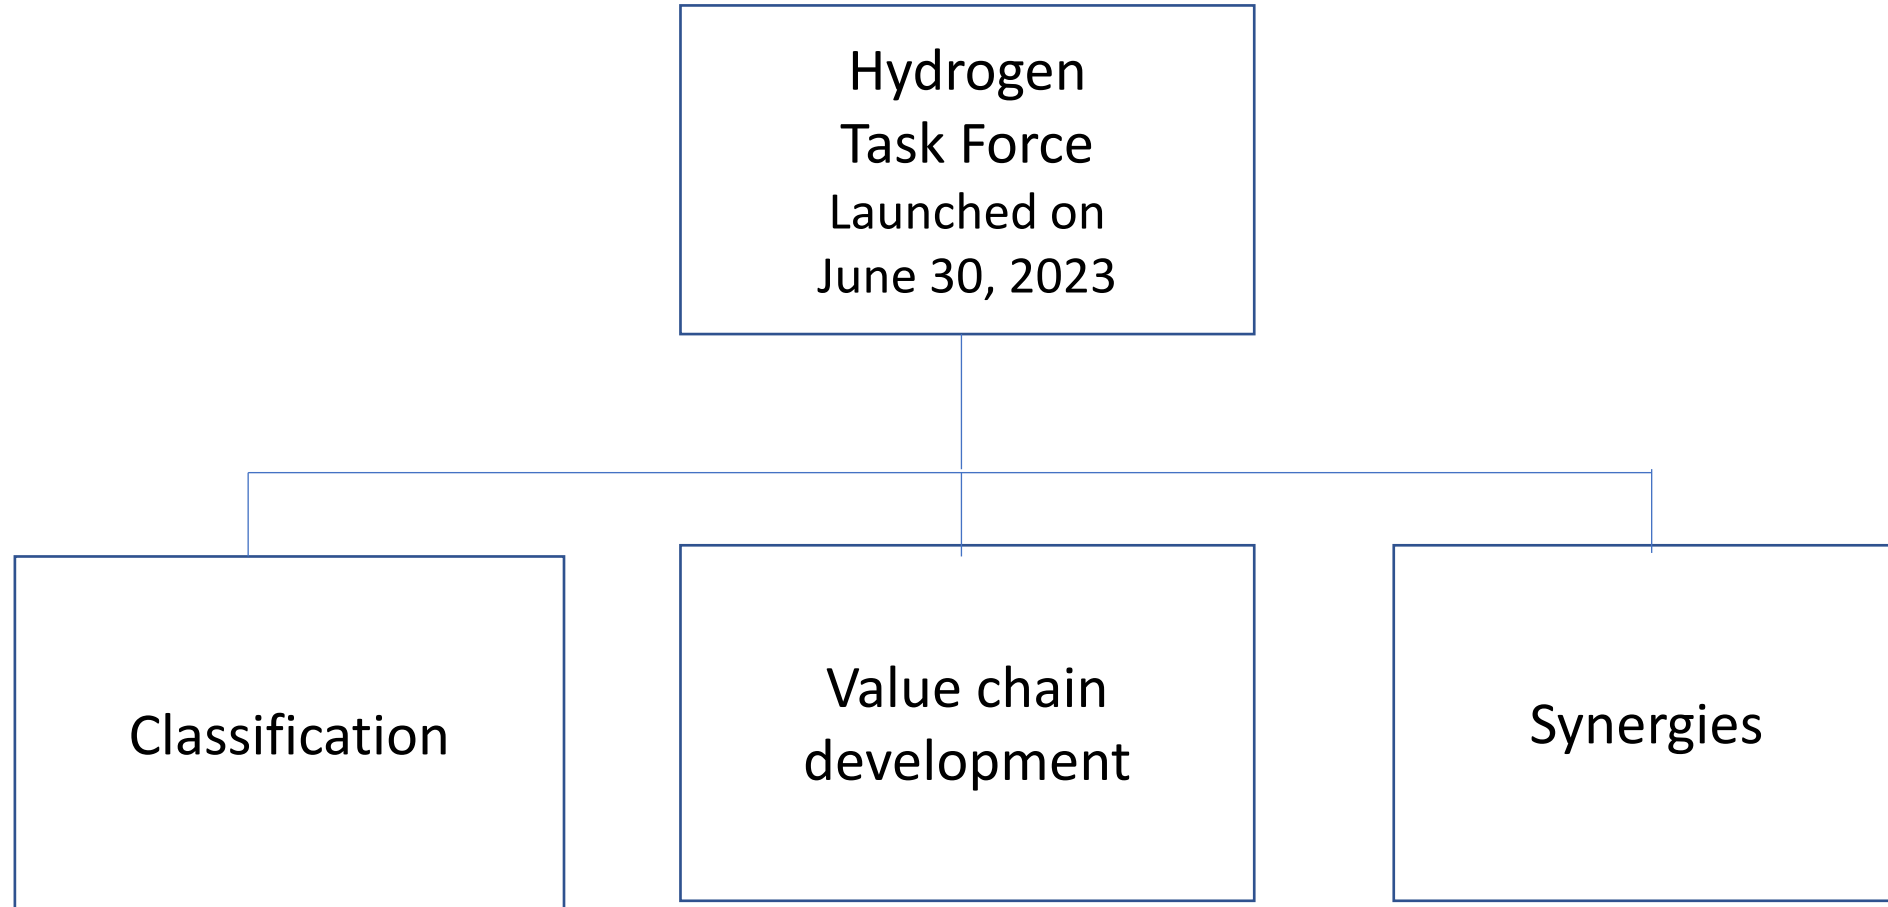

- Gas and Sustainable Development Goals
- Methane abatement
- Attaining net zero through **synergies between renewable electricity and gases**
- **Hydrogen economy → Hydrogen Task Force**
- System resilience and security of supply
- Carbon capture, utilisation, and storage: the role of gas infrastructure

UNECE Hydrogen Task Force - Timeline

HTF - Key Avenues of Action

HTF - Key Milestones

Publication: [Towards a Hydrogen Economy in the UNECE Region](#)

- ✓ International efforts – State of the H2 industry
- ✓ Key elements of proposed classification
- ✓ Next steps towards certification

2023-2024 Activities:

- Joint webinar on H2 Classification with IEA H2TCP Task 47 on H2 Certification R&D
- HTF meeting in March 2024 – HTF Program review
- HTF webinar on demand activation (June 18, 2024)
