Subject: French comment to IECEX On-Line Bulletin (ExMC/2053/DA item 8.5)

Dear Chris,

French National Committee would like to thank the IECEX Secretariat for the development and implementation of the On-Line Bulletin.

In addition, we have a proposal concerning the possible status for each standard, which currently are limited to:

- « Full Acceptance of Standard/Edition »
- « National Differences (ND) Exist »
- « No response yet provided by Member Body »

Considering that in some regions, all IEC Standards are not published as National Standard (for example IEC 60079-33 in EU), we suggest adding an additional status and propose:

- Standard not published at the national/regional level.

This proposal could also support a quicker refresh of the global table by removing some of "No response yet provided by Member Body".

Thank you for considering this proposal and please contact us for any question.

Best Regards,

French National Committee (CCFIECEX)
on behalf of Marie-Elisabeth d'Ornano
Julien Gauthier
